

Champion candidates on the four acceptance axes (ACL-076/078)

Decision tension: FRC-bound v6 vs dot-fidelity-bound v9-3k; v9-3k's OOD is the open blind spot.

OOD wins are vs the oracle anchor; vs the stronger portable baseline v6 wins 8/9 in-grammar but only ties out-of-grammar (ACL-077/078, fig94/95).
